NODO LOGISTICS PARK

National Route 19, Km
13
Córdoba, Argentina

WHY **INVEST IN AAA LOGISTICS?**

Logistics investment in Argentina is emerging as a high-potential asset within the corporate real estate market. Class AAA logistics delivers stable, dollar-denominated income backed by long-term leases with top-tier corporations.

Today's low vacancy, together with the boom in e-commerce and last-mile distribution, ensures sustained demand for modern space outside the urban ring, delivering greater operational efficiency. It is an option that combines a store of value, strong appreciation potential and returns above conventional investments.

KEY MARKET DRIVERS

PROVEN BUSINESS

Over the past two decades in Argentina, premium logistics warehouses have proven to be the most stable corporate real estate asset, sustaining high occupancy and stable dollar-denominated income.
In developed markets (the United States and Europe) and regional ones (Brazil and Mexico), real estate investment trusts (REITs) favor Class AAA logistics centers because leases with multinationals are typically very long-term (5 to 10 years).

SCARCE AAA WAREHOUSES

The market shows strong demand for premium-standard operational warehouses, and existing supply falls short. The strong recovery of sectors such as energy (Vaca Muerta), mining and logistics is attracting global investment that, under corporate compliance policies, can only operate in buildings meeting international construction and environmental standards (AAA).

PREMIUM PRICING

For large logistics operators, rent is secondary to the heavy losses caused by inefficiency. These operators pay higher rents because the building's design delivers critical operational savings that offset the rental cost. A Class AAA warehouse optimizes the delivery times that are key to today's commerce.

LOW DEPRECIATION

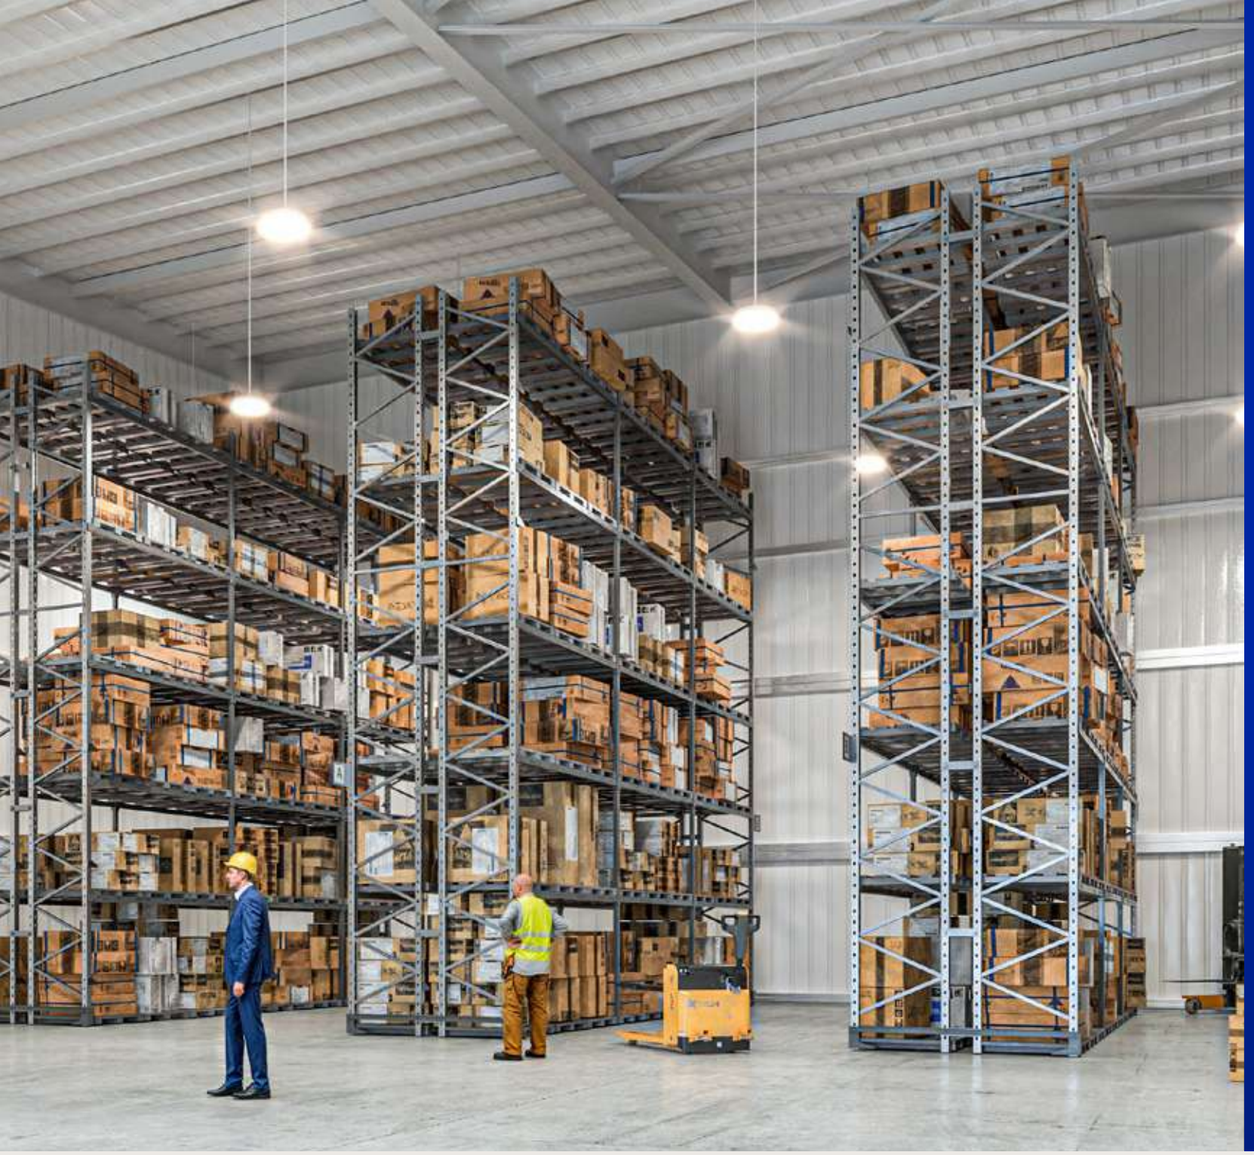

Unlike corporate offices or residential property, logistics warehouses require minimal maintenance costs for the owner and today offer a net yield that far exceeds traditional market rates.

NODO FLEX

14,400 m²

TOTAL WAREHOUSE AREA.

A WAREHOUSE THAT **ADAPTS TO EVERY OPERATOR**

Nodo Flex is a **divisible** warehouse that allows several logistics companies to operate at the same time, according to their needs.

A **premium** warehouse, designed for leading logistics companies with high operational demand.

WAREHOUSE TECHNICAL SPECIFICATIONS:

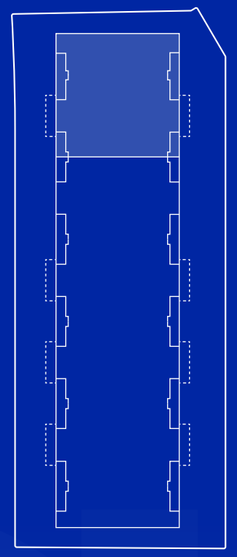

- ISO 9001-certified steel structure with 20 m spans and solid-web columns and beams.
- Minimum clear height of 10.24 m and maximum of 12 m
- Troweled concrete floors with laser-cut joints.
- 40 mm PIR SKIN exterior panels with pre-painted sheet metal.
- U45 metal roofing with 50 mm glass wool thermal insulation.
- Aluminum windows with double glazing
- Industrial sectional access doors.
- LED lighting.
- Large troweled-concrete maneuvering yard.
- Access to the park's services and infrastructure.

UNIQUE FLEXIBLE WAREHOUSE IN THE REGION

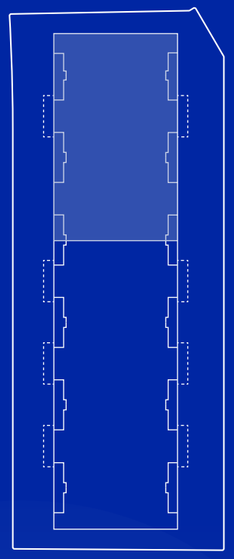

NODO FLEX is designed to adapt to the specific needs of each operation. The warehouse can be subdivided into modules, offering options for companies of different sizes and sectors.

From storage and distribution to light manufacturing, its flexible design ensures a space that evolves with your business.

INVEST IN **LOGISTICS**

NODO

RENTAL POOL

WE MANAGE AND ADMINISTER CORPORATE LEASES WITH MAJOR LOGISTICS OPERATORS, PROVIDING LONG-TERM SECURITY AND SUSTAINABILITY.

NODO

INVESTMENT

Stakes from **USD 160,000**, corresponding, on a pro-rata basis, **to 200 m² of warehouse.**

INVESTORS

Provide the capital, gaining access to a large-scale business in a strategic sector of the economy.

ZLT MANAGER

ZLT develops and fully manages the rental pool.

OPERATOR

The tenant company will pay a monthly rent agreed under a corporate lease.

RETURN

Earn a **100% managed yield**, generating passive income every month.

WHAT DOES THE MANAGEMENT TRUST DO?

The Management Trust handles monthly reporting and the transfer of income to investors. It also manages the lease of the warehouse to the companies operating in it, maintains the property, keeps everything in order, pays the applicable taxes and provides the services operators require.

HOW IS THE INCOME DETERMINED?

A monthly statement details all of the Trust's income and expenses, resulting in the income to be distributed. Each Settlor receives a percentage of that total, based on the stake acquired.

HOW AND WHEN AM I PAID?

We pay by bank transfer to the account designated by the investor.
We send the monthly statement within the first 5 business days and make the transfer on the Friday following the statement.

NODO IS A **LOGISTICS PARK**
DESIGNED TO TRANSFORM
INDUSTRY AND COMMERCE IN THE REGION.

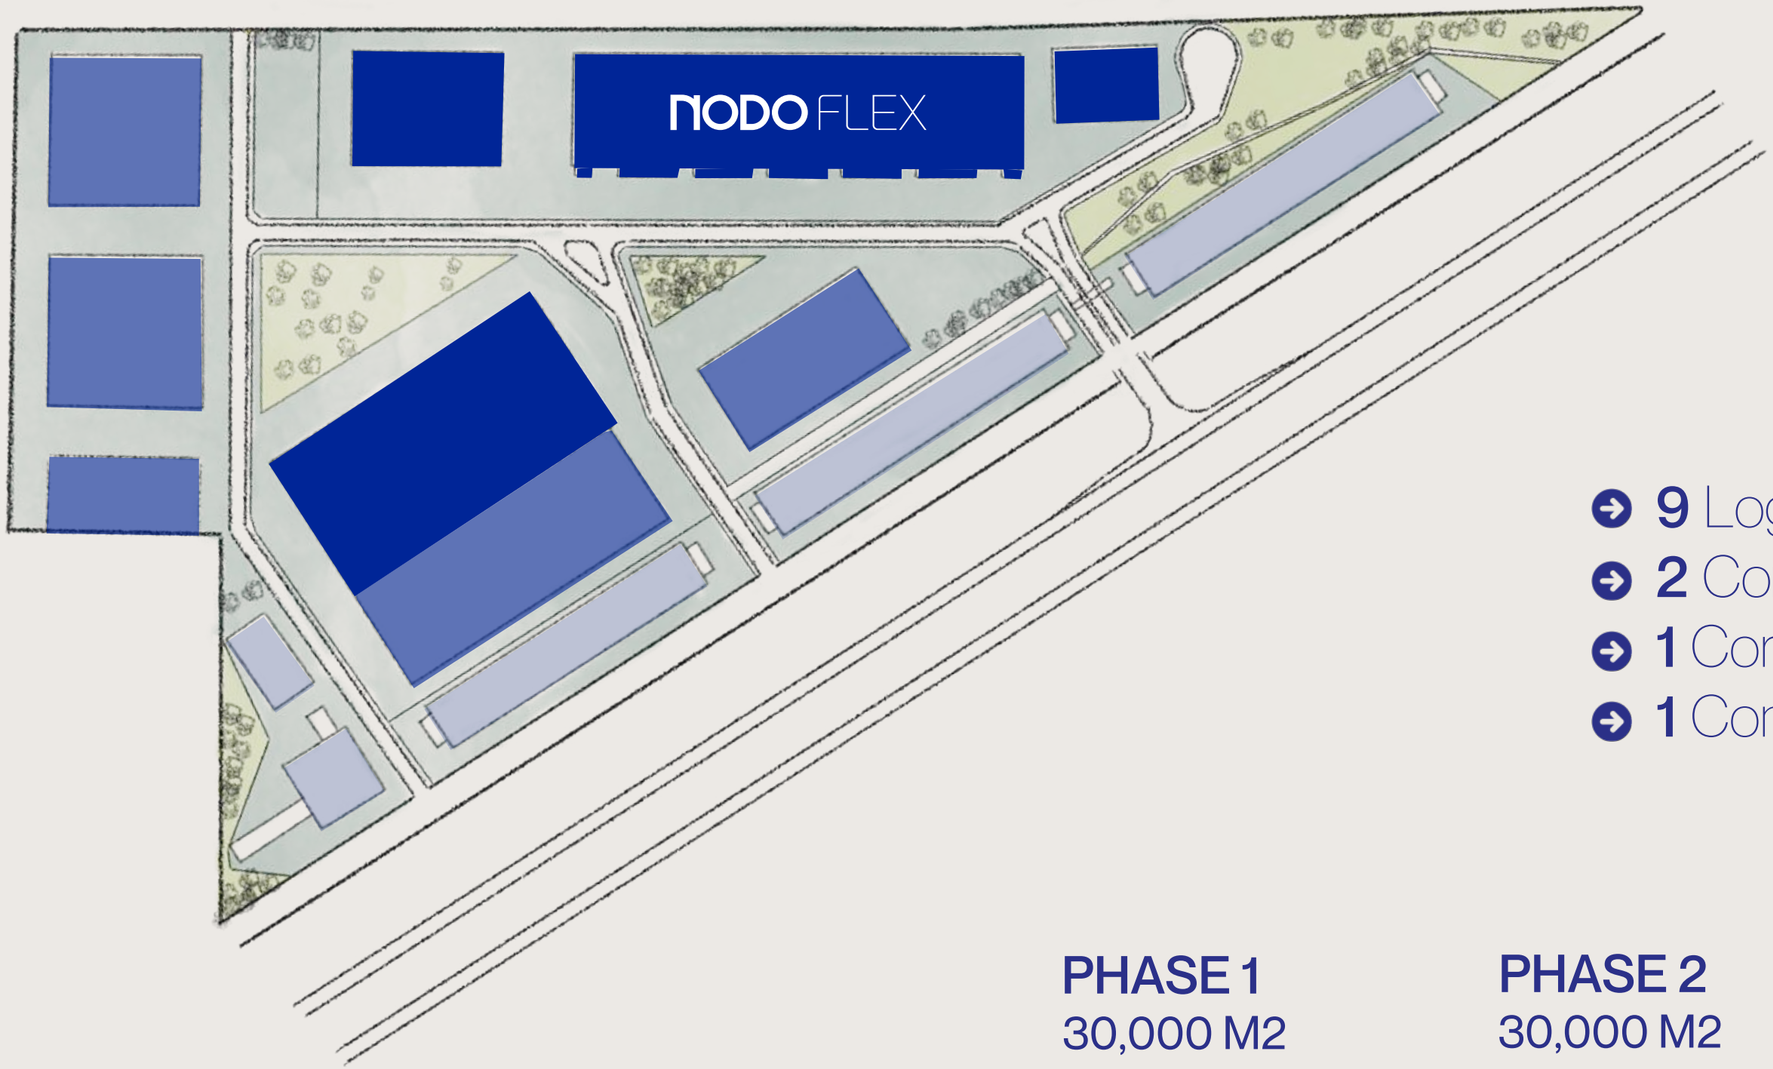

LOCATION

Strategically located in Córdoba city, on **National Highway 19, Km 13**, near the ring road, it offers fast access and modern infrastructure with comprehensive services.
